PROFILE

I am a dedicated Full-stack Python Developer committed to staying current with the latest technological advancements. My continuous learning and innovation drive me to enhance my skills and knowledge in the evolving tech landscape. With expertise in both front-end and back-end development, I manage complex projects and deliver robust, scalable solutions. My proactive approach keeps me at the forefront of industry trends, allowing me to implement cutting-edge technologies and best practices in my work.

EXPERIENCE

Full-Stack Python Development

Ace Web Academy - Apprenticeship

June 2024 - Present

Currently undertaking an apprenticeship in Full-Stack Python Development, actively engaged in building a variety of projects. This hands-on experience provides in-depth knowledge and a comprehensive understanding of both front-end and back-end technologies.

Web Development

1Stop.ai - Internship

October 2023 – December 2023

I led web development projects, delivering high-quality, timely results. I built a strong coding foundation, integrating innovative technologies. With strong problem-solving skills and creativity, I developed user-centric web solutions. I worked effectively with cross-functional teams to meet business and client goals. I'm dedicated to continuous learning and staying updated on industry trends.

Web Development

Bharat Intern – Virtual Internship

November 2023 – December 2023

I developed projects like a Netflix homepage clone, a to-do list app, and a weather API integration using HTML, CSS, and JavaScript. I focused on dynamic content, state management, and real-time data, creating responsive and user-friendly interfaces. I showed strong ideation, and adapted to various technologies to deliver high-quality results on time.
